Yuefu Purchase Terms

Two seats per order · Version 1.0 · November 2026 · AuraLink Studio

These terms are the agreement between **AuraLink Studio** and **the Buyer**: the person who places an order for Yuefu and pays for it. They are short on purpose. Please read them before you pay.

1. What you receive

When the agreed price has been paid in full, the order receives **two seats: Seat A and Seat B**. Each seat is one licence key for one computer. Both seats open the same instruments and have the same term (perpetual, or until the date stated in the order).

The two seats are always on two different computers.

2. What you do with the seats is your choice

Use them for a main computer and a laptop, keep one in reserve, or give or pass one on to another person. AuraLink Studio does not ask who uses a seat or why.

3. We deal with the Buyer only

From the order to the last request, AuraLink Studio deals with **one person: the Buyer**, through the e-mail address used for the order.

- Activations, transfers, renewals and support requests for either seat are accepted **only from the Buyer**, quoting the order number.
- A request from anyone else (a friend, a colleague, the person who received Seat B) is not answered, whatever the reason given. That person goes through the Buyer.
- The Buyer answers for the use of both seats. Whoever uses a seat must follow the Yuefu Licence Agreement (shown when Yuefu is installed).
- To change the order's e-mail address, write from the old address, or prove the purchase with the order number and the payment record.

4. Moving a seat to another computer

1. In Yuefu's Licence panel, press **Remove**. The plug-in shows a **deactivation code**.
2. The Buyer sends the code, the order number, the seat (A or B) and the **Machine ID** of the new computer.
3. The Buyer receives a new key for the new computer. The old computer no longer opens the seat.

Each seat may move **twice in any 12 months** free of charge. If the old computer is lost or broken (no deactivation code), or the seat has already moved twice, the new key is valid for at most 12 months; AuraLink Studio may renew it.

Reinstalling Windows on the same computer is not a move: the Machine ID stays the same and the same key works.

5. Payment, refund and revocation

Seats are issued only after the full payment has been received. If the payment is cancelled, refunded or charged back, or the order was obtained by fraud, **both seats are revoked**. A seat used in breach of the Licence Agreement may be revoked; a seat or order revoked by mistake is reinstated.

6. The Licence Agreement

Everything not settled here is governed by the Yuefu Licence Agreement. Where it forbids letting another person use a licence key, these terms allow it for a seat, as section 2 says.

7. Law and languages

These terms are governed by the laws of the Socialist Republic of Vietnam. They are published in English, Chinese and Vietnamese; the three texts have the same meaning.
